Guidance and support for Union engagement, HSE Compliance, HR Advice for Staff and customer engagement.

Circular1 Health is UK based supplying the best in class, in order that you can be safe in the knowledge that your business is in safe hands.

Our test service uses proven technology (in use by PHE / NHS) with rapid test result response. From lab receipt to result in 40 minutes, sent via SMS.

Our Biosecurity entry systems are made in the UK and in use all over the world, reducing absenteeism prior to COVID-19 already have a proven track record.

Our swab surface packs can be implemented by your existing cleaning contractor with prior training from our willing and able team.

If your HR Team require support, or if you don't have one our partner business RealiseHR, experts in their field can provide you with all the assistance you may need.
